

12th October 2021

Dear Parents,

RE: Financial Contributions to Design and Technology products.

During this year your Son or Daughter will be attending Design and Technology lessons on a rotational base.

In year 7 students make a wooden toy, a drawstring bag and a printed T- shirt.

In year 8 Students make a Device holder*, a zine or magazine and a Cushion cover. (* students who did not make a boat in year 7 will start the year with this instead of the device holder)

At the start of this academic year we are asking all students to make a contribution of £6.00 towards the cost of the materials. This contribution, by no means covers the full cost of materials, but allows us to fund materials so that the products your child takes home are of a high quality, useful and are a product to be proud of. Pupil Premium students will have this contribution paid for them automatically.

Please make your contribution via Parent pay by Friday 5th November 2021

Food lessons in the rotation

All students will have a module of Food Technology, where we ask parents to provide ingredients. For these lessons students will need their ingredients, an apron and a suitable container to take their cooked food home in. The ingredient lists are given to students in the lesson and also posted on their Google classroom.

If you have any concerns, please do not hesitate to contact me

We appreciate your support in in this matter

Yours Sincerely

Mrs Laura Beeden
