### Mid-year Chromebook Purchases

Dear Parents and Carers,

I am writing to inform families who may be considering purchasing a new device through Getech and edde that mid-year portals to order new devices will be open **on Monday 10th November until 28th November 2025.**

All ordered Chromebooks will be delivered to our school the week commencing 15th December. Direct debits will begin from 1st January 2026.

Under this scheme, your child will receive a Lenovo 300e Yoga Chromebook Gen 4 and a neoprene protective case. The scheme pricing includes: the device, the Google licence set up, 3-year warranty and insurance. Plus, configuration to the School IT infrastructure to allow filtering and monitoring of use to keep the students safe online, as per the Department for Education regulations.

Pricing starts from £14 per month and includes the free loan device provision to ensure continuity of learning.

For students in Sixth Form, we do allow more flexibility in terms of choice of device as we recognise students considering higher education may prefer a higher specification laptop to support their chosen subject. However, you will need to understand the implications of using those laptops in our schools in terms of filtering and monitoring restrictions. Sixth Formers are still able to purchase a Chromebook if preferred and is always our recommended option.

If you would like to access the portal to purchase a new device, please follow <https://princesrisborough.parentportal.biz/> and use the different purchase codes:

**Y7 & Y8: PRS6-6**

**Y9: PRS7-7**

**Y10: PRS8-8**

**Please, refer to the attached flyers for specific instructions to make a purchase, as well as the specifics of the chromebooks and insurance key facts.**

I hope this information is useful to you, and you can find more about our Chromebook schemes on our schools website:

Thank you for supporting your child's digital learning experience with Google.

Yours faithfully,

Mrs E Salgado
